HONGKONG, WEDNESDAY, MAY 7, 1890.

THE new draft bill for the regulation of the water supply, which was approved at the last meeting of the Sanitary Board, its in many respects an improvement on the old Bill. The clauses are more concise and the meaning much clearer, a great deal of useless verbiage being left out. And not only in form-but in substance has the Bill been improved. The power of the Water Autho- Sat down in the cellar and swore with tim rity and of the Government, instead of being practically unlimited, is now made subject. to the Legislative Council, the approval of which body must be obtained before any Mr. Goodform's card, Mr. Auger. Mr. by-laws can be enforced. The area within Anger: Ab-cr-is he a particular triend which tenements are chargeable with the

ment may seem fit. But, while affecting many improvements, the Savitary Board has in one very important matter made a change for the worse. In the old bill the cost of water, on the basis of which the allowance for the 3% rate is to be made was not to exceed 25 cents per thousand gallons, and the charge for extra consumption was to be fixed at a price not

exceeding forty cents per thousand gallons. It was stated, however, by Mr Chadwick in his report that, making a liberal deduction for waste and the requirements of Government establishments, 15 cents per thousand gallons was a fair, basis on which to fix the ordinary allowance. The Saultary Board has done well, we think, to insert this sum as the maximum price for the ordinary supply. With the Tytam and Pokfulam Works in proper order, as they ought soon to be, an abundant supply ought to be assured for several years to come; and it is to be presumed that if the domand increases rapidly provision will be made for obtaining more water. Of course, we have not an inexhaustible storerhouse on the island but we have by no means utilised all the sources of supply. There is provision also in the ordinance for meeting exceptional emergencies, for the Water Authority may, when the available supply is deemed insufficient, diminish or suspend the supply without prejudice to the In ordering it is only necessary to rates due. There is therefore no necessity for stating the maximum price for ordinary consumption at a figure higher than 15 cents. - Even should our store be diminished by any permanent cause, the Water Authority has the power given to it to change the price, with the approval of the Legislative Council. As far as the rate for the ordinary supply 1.10 is concerned the action of the Board has consequently been in the right direction; extra consumption from forty cents to fifty cents they have committed adgrave mistake, which would, if their suggestions are carried into effect, give the Government the power of crippling some of the wine, Green Seal Capsule 7.50 0.75 industries of the Colony and of imposing a hurdensome tax on the people. Mr Francis and Mc Ede, who are mainly responsible for this alteration, know as well as, if not better than, most residents in this Colony that it does not do to trust to the sweet reasonableness of a Government Official. When money is wanted for the public coffers, Governments are disposed to raise it in the manner that gives them least trouble, and seldom take the pains to study the Quarts. Pints. effects of their actions on the trade and prosperity of the Colony. Give the Go-\$4 \$4.50 Vernment the power to charge 50 cents. for extra comumption, and it may be taken for granted that on the first opportunity they would exercise the Case Per Bot. power to the full extent, irrespective of the available supply of water. To \$12 \$1.10 charge 50 cents per thousand gallons for extra supply would simply mean a tax on trade-a tax of the most objectionable cha-18 1.50 ractor. Don't let us imagine that this tax would come out of the pockets of rich manufacturers or the shareholders of manufacturing concerns. These would at once seek to recoup themselves, and the money would finally come out of the whole community. Indirect taxes of this sort are most objectionable, as they are in a certain

and Francis was to obtain power to impose such a rate as would in case of a dearth of water prevent manufactorers from using up 12 1.10 the supply necessary for domestic purposes. This is a very laudable purpose, but they 8 0.75 have not adopted a good means of carrying at into effect. We believe there exists at Tytam and Pokfulam an abundant supply Old, Green Capsule . . . 12 1.10 not only for the existing population but for the increased population we may expect to 10 1.00 have five or six years hence. It must not be forgotten that during four or five months the supply is practically unlimited. During the rest of the year there is no fear, bar-4.50 0.40 ring calamities, of Pokfulam and Tytam reservoirs both running dry, if ordinary care is taken. It may be desirable, in order 12 1.00 to insure such care being observed, that the supply should be measured and regulated, although we are not convinced, in existing Heoring's Cherry Cordial circumstances, that it is necessary to adopt such a course immediately. But if it is advisable to measure the water and to charge for extra consumption, it is not At Tunbridge Wells, on the 6th May, necessary to make that charge high in order to insure ordinary care. We cannot believe that a manufacturer, if he had to pay 15 cents per thousand gallons parthe publication of this issue commences in addition to his rates for the quantity ha consumed above the fixed allowance, would not take ordinary care to prevent waste. Therefore, we say, until it is proved that the supply is far short of the demand-for which eventuality there is ample provision in the Bill, for the charge for excess may be changed at any lime, with the consent of the Legislative Council—the maximum rate fixed in the Bill should be the same for excess as for ordinary supply.

### STORM WARNINGS.

In view of the recent report of the Observatory Commission, the following letter, received by the Chamber of Commerce during the last typhoon season, will doubt less be read with interest :-

Hongkong, 24th Sept., 1889.

Sir. -In answer to your request for an expression of opinion with regard to storm warnings for this port from a seaman's noint of view, I respectfully beg to lay the following suggestions before the Chamber of Commerce for their consideration.

It would be desirable to make arrangements with the Spanish authorities in Manila, and also with the Imperial Chinese Maritime Customs, to telegraph from their stations in the North of Luzon and from South Cape, Formosa, respectively, the bearing of the centre of all typhoons that pass into the China Sea, either to the North of Luzon via the Bashee and other channels. and also of those which pass over the Philippines further South, to the Government of this Colony.

A glance at the chart will show that it is almost a certainty that one or both of these points will be included in the eterm area of any typhoon coming in from the Pacific. and that both the above-mentioned points members of the party, Mr. Ney Elias having | are favourably situated for obtaining crossbearings of a storm passing across the China Sea, or for that matter before it has

The above gives in outline what the practical needs of the Colony are at the present moment, and as time goes on the scope of the plan can be extended if need be. The details would have to be arranged by the high authorities of the various powers concerned, and there seems no reason to doubt that all would take an enlightened and comprehensive view of the mattter.

THE CREWE MURDERERS. London, April 9th.—As predicted in last night's despaiches, it is now asserted upon unquestionable authority that the action of the Home Secretary, Mr. Matthews, in the case of the brothers, Richard and George Davies, the former of whom was hanged yesterday for killing his father, will be made the subject of parliamentary discussion-at as early a moment as the matter can be brought up. The fact that not even the Queen's recommendation of clemency was permitted by Mr. Matthews to alter his determination to hang young Richard, has deeply incensed thousands of the Home Secretary's political adherents, and his London, March 30 -- Queen Victoria is obduracy will cost him his seat in the
